SPECIAL EVENTS THIS MONTH:

Bigger Than Us

Thurs Mar 2

1:30 - 3pm

This month's topic: Neuroscience

Today, neuroscience is exploding in a way never before seen in the world. We used to think that once we reached a certain age, the brain stopped changing. We now know that the brain never stops changing and one concept that is getting a lot of attention is neural-plasticity. We will see a number of examples of neural-plasticity in action. In fact, you may leave with the idea that you may be able to change your own brain.

We are using a non-profit, web-based, credible resource through TED Talks. Upon viewing the DVD, our volunteer facilitator Richard Keeler, will lead a discussion.

No charge for all Members. Please ensure you register at the front desk to maintain our maximum numbers.

Movie: Hacksaw Ridge

Story: The extraordinary true story of Desmond T. Doss who saved 75 men in Okinawa, a Japanese island during the bloodiest battle of WWII, without firing a single shot. Believing that the war was just but killing was nevertheless wrong, he was the only American soldier in WWII to fight on the front lines without a weapon. As an army medic Doss single-handedly evacuated the wounded near enemy lines - braving enemy fire and putting his own life on the line. He was the first conscientious objector to ever win the Congressional Medal of Honor.
